# OCZ RevoDrive Series
PCI-Express x4 SSD

Design and Technology:

PCIe Solid State Drive for High Performance consumer applications

The OCZ RevoDrive makes fast, faster with an innovative performance design that pushes the envelope in solid state technology and leaves hard drives in the dust. Moving beyond the bottleneck of SATA2 the RevoDrive features a PCIe interface to deliver superior performance. Designed for high-performance gaming PCs and workstations, the RevoDrive dominates thanks to the unique capability to run both Windows and your essential applications and games. With speeds up to 540MBps and 70,000 IOPS, this bootable PCI-Express SSD not only provides a more responsive PC experience, but promotes cooler, quieter, and more energy efficient conditions compared to traditional mechanical hard drives. The RevoDrive can accommodate a wide range of computing environments such as video-editing and other multi-media creation and management, all while providing the superior durability and reliability of SSDs.
